Invitation to Comment on the Draft (AIC) Capacity Agreement Procurement of Capacity for the Ameren Illinois Company Portfolio

Invitation to Comment

On September 28, 2015, the Illinois Power Agency (“IPA”) submitted its Procurement Plan (“Plan”) to the Illinois Commerce Commission (“ICC”) in compliance with Public Act 095-0481, which includes the Illinois Power Agency Act. The ICC approved the Plan with modifications on December 16, 2015. The Plan provides for procurement of capacity for Ameren Illinois Company (“AIC”). The Standard Products Request for Proposals (“STP RFP”) targets 75% of the 2017-2018 planning year forecast requirement and 25% of the 2018-2019 planning year forecast requirement for AIC. (While the procurement of capacity is for AIC only, the STP RFP also will solicit bids for energy blocks for AIC, Commonwealth Edison Company, and MidAmerican Energy Company.)

The supplier contract for the procurement of capacity is the Confirmation Agreement, which is also designated as the “(AIC) Capacity Agreement”. The Draft (AIC) Capacity Agreement includes, as part of the definition of the Product, provisions to amend the supplier contract in the event that MISO receives FERC approval to implement changes to its resource adequacy construct that would require AIC to satisfy the resource adequacy requirements with a product other than the product (ZRCs) to be delivered under this supplier contract.

The Procurement Administrator invites interested parties to submit their comments on the Draft (AIC) Capacity Agreement.
