

Appendix 6
Low-Income Community Solar Pilot RFP - Bid Date: December 13, 2019
Bid Form - General Information

The Low-Income Community Solar Pilot RFP seeks to procure RECs delivered annually to the IPA from new pilot solar low-income community renewable energy projects under fifteen-year contracts. In this Bid Form, the REC Contract means the Low-Income Community Solar Pilot RFP Final REC Contract.

Template Information:

In addition to this 'General Information' sheet, this Bid Form contains the 'Bids' sheet.

Bidder Information:

Bidder Name	Bidder A
Contact Name	John Doe
Phone Number	555-555-5555

Product Information:

-A REC is a Standard REC and represents all the environmental attributes corresponding to one megawatt-hour of energy generated from renewable energy sources.

-The procurement event seeks to purchase RECs from new pilot solar community renewable energy projects that provide economic benefits to members of a low-income community subject to a budget of \$20,000,000.

Complete and Sign Certification:

I, John Doe, certify under penalty of perjury that I am authorized to submit these Bids.

By affixing my electronic signature below I understand and agree to the following: Any Bid submitted with respect to the Project must remain binding until seventeen (17) business days after the Bid Date. The price in the Bid constitutes a binding and irrevocable offer to supply RECs from the Project selected in the evaluation at the price in the Bid and under the terms of the REC Contract. If the Project is selected in the RFP and the Seller's Bid on that Project is approved by the Commission, the Seller will execute the REC Contract with the IPA as instructed by the Procurement Administrator, and the Seller will submit all necessary supporting documentation including documentation to comply with the Illinois State Requirements within the timeframes required by the REC Contract.

Appendix 6
Low-Income Community Solar Pilot RFP - Bid Date: December 13, 2019
Bid Form - Bids

Bidder A

Notes:

- A Bid for a Project is a price per REC at which the Seller will receive payment for RECs that are delivered and that are attributable to subscribed shares. With its Bid on a Project, the Bidder will also be asked to specify a "minimum capacity" in kW (AC rating).
- The minimum capacity must not exceed the Project size.
- The price in the Bid must be a \$/REC and must display as a number rounded to the nearest cent.
- Only one Bid may be submitted for a Project.

BIDS TAB COMPLETE	OK
--------------------------	-----------

Total Cost across all Projects at Expected Output:	\$15,544,620.00
---	------------------------

RECs generated from new pilot solar community renewable energy projects

	Name of Seller	Project Tag	Project Size (kW)	Capacity Factor	Expected Output (RECs)	Price (\$/REC)	Cost of Expected Output (\$)	Minimum Capacity kW (AC rating)	Output at Minimum Capacity (RECs)	Minimum Capacity ≤ Project Size
1	Sample Seller 1	SMP-01	5,000.00	22.75%	9,965	\$50.00	\$7,473,375.00	4,500.00	8,968	OK
2	Sample Seller 2	SMP-02	6,000.00	22.75%	11,957	\$45.00	\$8,071,245.00	5,500.00	10,961	OK
