Name of Bidder

Fourth Item: Carbon-free Energy Resources

The Bidder must provide the Carbon-free Energy Resource name and address, the name of the applicable Pnode ID (the pricing location for the Carbon-free Energy Resource as identified by PJM and as used by PJM in the energy settlement for the Carbon-free Energy Resource), and both the summer capacity (MW) and nameplate capacity (MW) for each Carbon-free Energy Resource presented as part of the Proposal. For a multi-reactor site, each generating unit is considered a separate Carbon-free Energy Resource.

- The summer capacity (MW) and nameplate capacity (MW) provided for a Carbon-free Energy Resource in the Proposal Form must match the summer capacity (MW) and nameplate capacity (MW) provided for that Carbon-free Energy Resource in Appendix B Carbon-free Resource Required Information submitted to the IPA.
- The summer capacity (MW) will be used to calculate the Minimum Delivery Commitment as defined in the CMC Contract.

PLEASE PROVIDE THE NAME, ADDRESS, PNODE ID, SUMMER CAPACITY (MW) AND NAMEPLATE CAPACITY (MW) FOR EACH CARBON-FREE ENERGY RESOURCE IN THE BOXES BELOW.

Name	Address	Pnode ID	Summer Capacity (MW)	Nameplate Capacity (MW)

Fifth Item: Agency Agreement

A Bidder that operates under an Agency Agreement may be subject to additional requirements.

Is the Bidder operating under an Agency Agreement?

- Yes No

If YES, THE REQUIREMENTS FOR A BIDDER OPERATING UNDER AN AGENCY AGREEMENT WILL BE PROVIDED TO THE BIDDER IN A SEPARATE NOTICE.

If NO, please proceed to the next Section.

Name of Bidder

2. Bid Participation Fee

A BIDDER THAT DID NOT PAY A BID PARTICIPATION FEE PURSUANT TO ITS PARTICIPATION IN A PRIOR 2021 PROCUREMENT EVENT MUST PAY A NON-REFUNDABLE PARTICIPATION FEE OF \$500.

Has the Bidder paid a Bid Participation Fee pursuant to its participation in a prior 2021 procurement event?

Yes

No

If YES, proceed to the next section.

If NO, please follow these instructions.

A Bidder is required to pay a non-refundable Bid Participation Fee of \$500. A Bidder that has paid the Bid Participation Fee will not be reimbursed, even if all Carbon-free Energy Resources presented by the Bidder fail to meet the requirements of the Proposal or if the Bidder decides not to continue its participation in the CMC RFP.

Bidders must pay the Bid Participation Fee to the IPA as a condition of the Bidder fulfilling the requirements of the Proposal. The Procurement Administrator will issue instructions for the payment of the Bid Participation Fee prior to the opening of the Proposal Window that will include the available methods of payment. Instructions for submission of the Bid Participation Fee are available from the Procurement Administrator upon request.

THE BID PARTICIPATION FEE IS DUE BY THE PROPOSAL DUE DATE (NOVEMBER 18, 2021) AND THE BIDDER MUST PROVIDE EVIDENCE OF COMPLIANCE WITH THIS REQUIREMENT WITH ITS PROPOSAL. Such evidence must show that payment has been made in accordance with the instructions issued by the Procurement Administrator.

PLEASE PROVIDE THE EVIDENCE OF PAYMENT OF THE BID PARTICIPATION FEE BY EMAIL USING THE PROCUREMENT ADMINISTRATOR'S SECURE FILE TRANSFER INTERFACE TO THE PROCUREMENT ADMINISTRATOR.

Notwithstanding whether a Bidder has provided such evidence, the Proposal remains deficient until the Procurement Administrator is able to get confirmation from the IPA that the IPA has received payment of the Bid Participation Fee from the Bidder.

3. Additional Carbon-free Energy Resource Information

First Item: Projected Energy Generation Output

A Bidder must provide the annual projected energy generation output (MWh) for each of the five years under the CMC Contract for each Carbon-free Energy Resource presented as part of the Proposal. The average of the annual projected energy generation output (MWh), rounded to the nearest whole number, for the five years for a Carbon-free Energy Resource will be the Annual Projected Quantity for that Carbon-free Energy Resource used in the selection process described in the RFP Rules.

- The annual target (or “Target”) of CMCs that cannot be exceeded is 55,862,500 CMCs, which is equal to 54,500,000 CMCs plus 2.50% (54,500,000 CMCs + (54,500,000 CMCs x 2.50%)). The sum of the average of the annual projected energy generation output (MWh), rounded to the nearest whole number, provided for each Carbon-free Energy Resource in the following table cannot exceed the Target.
- The average of the annual projected energy generation output (MWh), rounded to the nearest whole number, provided for each Carbon-free Energy Resource must be greater than or equal to the Minimum Delivery Commitment defined in the CMC Contract. The Minimum Delivery Commitment for a Carbon-free Energy Resource is equal to the multiplicative product of (a) 88%, (b) 8760, and (c) the summer capacity (MW) provided for that Carbon-free Energy Resource.
- The annual projected energy generation output (MWh) for each delivery year for a Carbon-free Energy Resource cannot exceed the multiplicative product of (a) 100%, (b) 8760, and (c) the nameplate capacity (MW) provided for that Carbon-free Energy Resource.

PLEASE PROVIDE THE ANNUAL PROJECTED ENERGY GENERATION OUTPUT (MWH) FOR EACH OF THE FIVE YEARS UNDER THE CMC CONTRACT FOR EACH CARBON-FREE ENERGY RESOURCE IN THE BOX BELOW.
